

Bethlehem

Bringing value to clients in the mid-Atlantic and beyond

Clients rely on our geotechnical engineering and environmental consulting.

Our Bethlehem-based consultants, many of whom are New Jersey LSRPs, bring deep experience with environmental compliance and due diligence, legacy contamination, climate change resilience, environmental and facility permitting,

and land use permitting and wetland services. Learn more about our services:

- Brownfields
- Construction
- Contaminated site management
- Disaster and climate resilience services
- EHS compliance
- Sustainability
- Geotechnical engineering
- Lean consulting
- Water resources

From Bethlehem, our consultants collaborate with experts across the country to propel forward-thinking solutions that help clients meet regulatory requirements, maintain their reputation, and access cost-effective solutions.
