Hart Crowser, a division of Haley & Aldrich

Haley & Aldrich and Hart Crowser, a geotechnical engineering and environmental consultancy, have joined forces. We are excited about what that means for our clients and the industries in which we work.

The value of a Haley & Aldrich and Hart Crowser team

Like Haley & Aldrich, Hart Crowser has earned a reputation for excellence and has advanced the environmental and geotechnical engineering practices over the decades through their innovative approaches to solving their clients' toughest challenges. Not only do they develop innovations for emerging issues, but they also are adept at finding new ways to address old problems – saving their clients time and money and keeping them in good stead with their stakeholders.

What can the combined team do for you?

- Haley & Aldrich clients now benefit from Hart Crowser's extensive experience in the Pacific Northwest and the Pacific Islands.
- Notably, Hart Crowser is recognized for its cutting-edge performance-based seismic design methods for high-rise buildings in the U.S.

- Hart Crowser clients have access to Haley & Aldrich's full national cadre of environmental and geotechnical staff and services in nine markets, from higher education to mining to manufacturing.

While the services and markets we serve are diverse, you'll have a consistent experience when working with Hart Crowser and Haley & Aldrich. You'll have a team focused on deeply understanding your needs and passionate to deliver results that endure.

Together, Haley & Aldrich and Hart Crowser have 800 staff and 33 office locations. Their practitioners live and work in every U.S. state and perform work internationally.

People are our greatest asset. Get to know the Haley & Aldrich team.

Environment, social responsibility, and governance

We model our socially responsible practices around what's best for our clients, employees, and ultimately the world. By approaching our work with care, we advance initiatives to preserve our planet and people for the future.

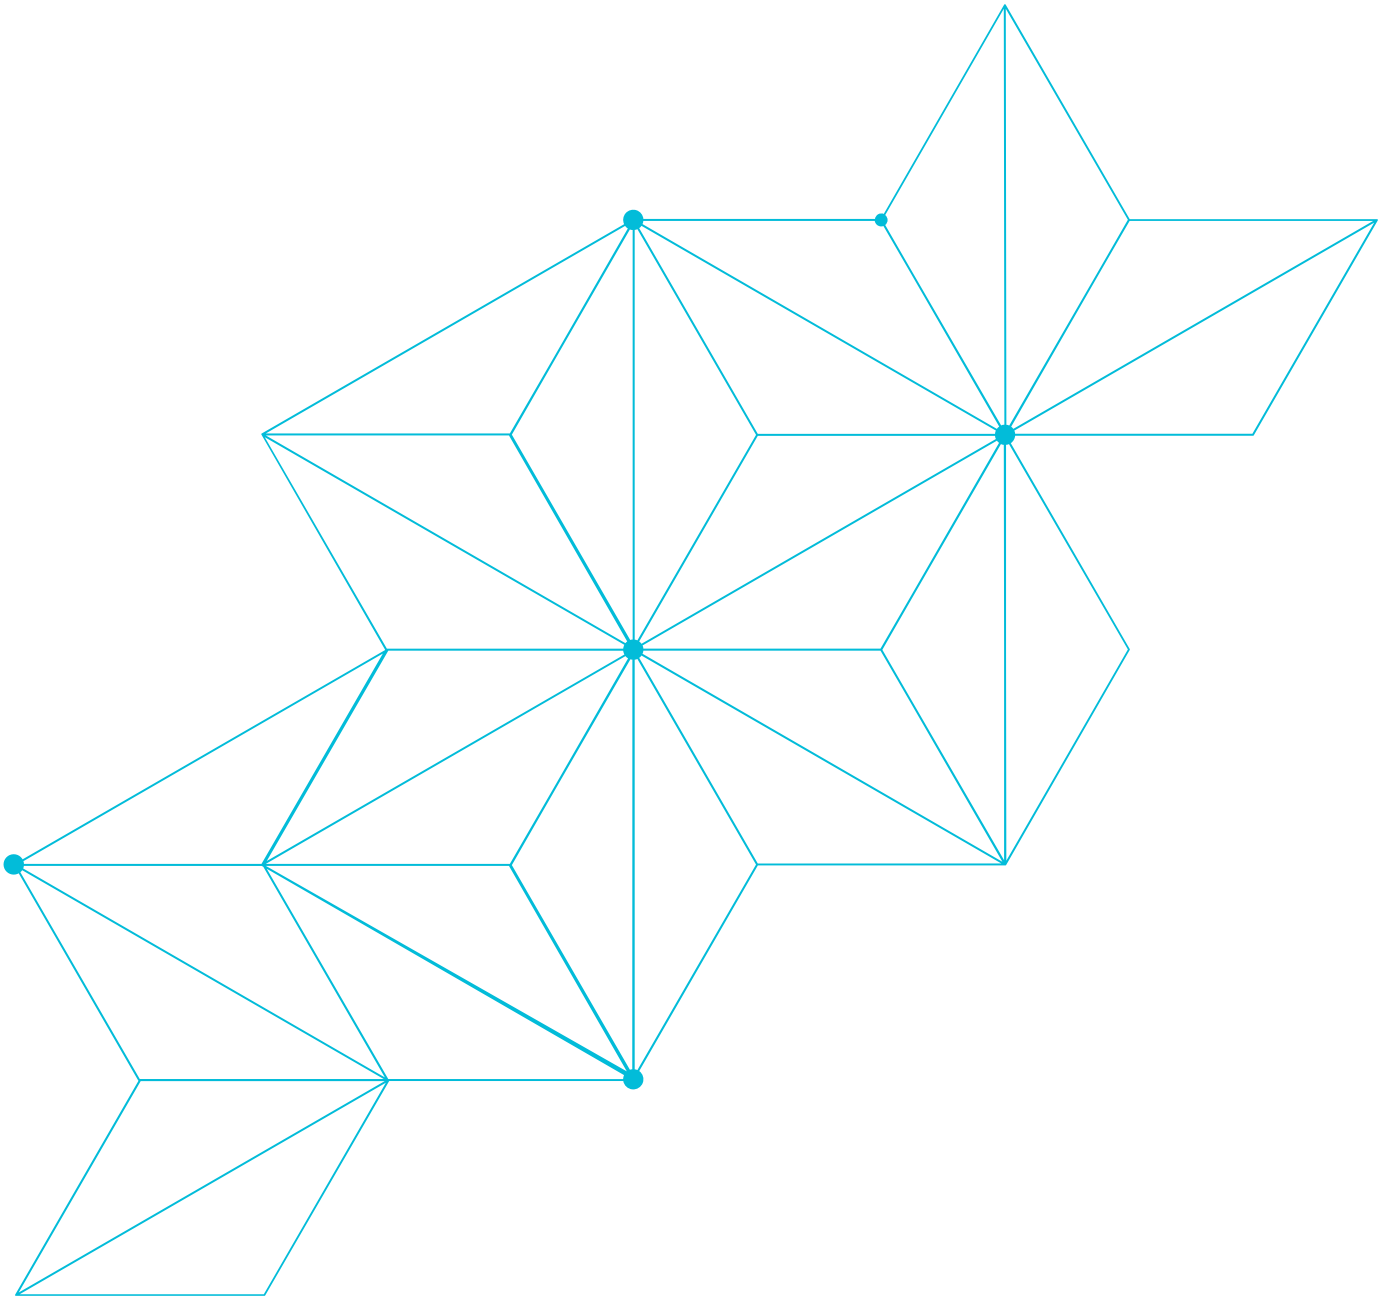

Health and safety is at the core of everything we do.
