Grand Rapids

Advising clients in the Midwest and nationally.

Offering engineering and environmental consulting from Michigan in collaboration with teams across the country.

HALEY ALDRICH

Haley & Aldrich's Grand Rapids consultants partner with teams around the country to provide services that include:

- Brownfields
- Construction
- Contaminated site management
- Disaster and climate resilience services
- EHS compliance
- Sustainability
- Geotechnical engineering
- Lean consulting
- Water resources

Construction, development, and environmental remediation projects throughout the Midwest present distinct challenges due to regulatory requirements and the region's varied geological conditions. Haley & Aldrich provides specialized geotechnical engineering and environmental consulting in Grand Rapids, Michigan, and across the country.

With decades of experience, our geotechnical engineering experts craft customized solutions to tackle complex subsurface conditions, including expansive clay soils, glacial deposits, and groundwater management issues. By integrating geotechnical knowledge with environmental services such as ESG consulting andPFAS services, we deliver comprehensive strategies that promote sustainable development while prioritizing compliance with evolving regulatory frameworks.

Our Michigan consulting team has contributed to projects throughout the region, for example, on anuclear plant decommissioning project that ensured full plant closure was possible.
