

## Honolulu

A Haley & Aldrich hub for Hawaii clients.

Serving clients in the Pacific and beyond with geotechnical engineering and environmental services.

Located near Mamala Bay, Haley & Aldrich's Honolulu office counsels clients on areas that include:

- Brownfields
- Construction
- · Contaminated site management
- Disaster and climate resilience services
- EHS compliance
- Sustainability
- · Geotechnical engineering
- · Lean consulting
- Resilience
- Water resources

Haley & Aldrich's Hawaii staff prides itself on serving local organizations and communities through conscientious infrastructure and natural resources management. In one example, we completed <u>award-winning engineering work</u> that reduced the risk of rockfall along a Maui peninsula's only access road.
