

Phoenix

Haley & Aldrich's hub for Arizona clients.

Clients rely on our geotechnical engineering and environmental consulting.

Located in the heart of downtown near Arizona State University, our Phoenix office members draw on local and national teams to provide services in:

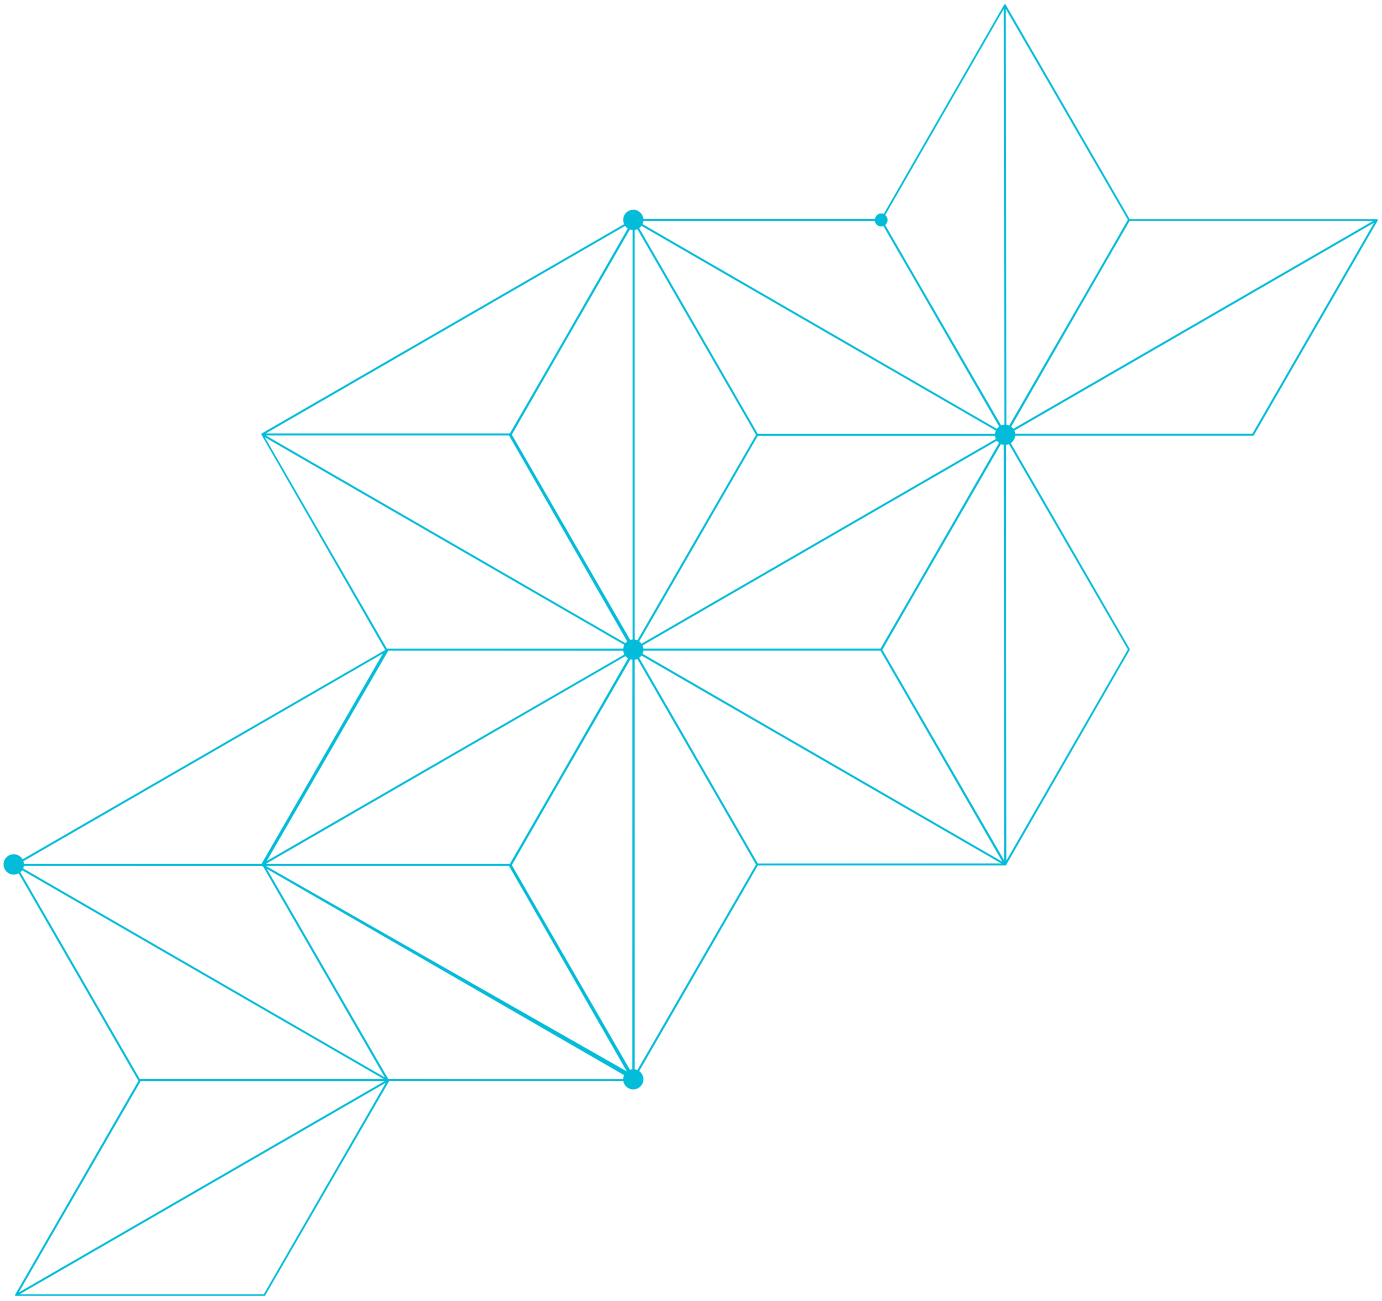

- Brownfields
- Construction
- Contaminated site management
- Disaster and climate resilience services
- EHS compliance
- Sustainability
- Geotechnical engineering
- Lean consulting
- Water resources

Regulatory demands and the unique geological conditions of the Southwest present numerous challenges to a wide range of construction, development, and environmental projects. Haley & Aldrich offers comprehensive geotechnical engineering services and environmental solutions in Phoenix and throughout Arizona and the United States, calling on our more than 60 years of experience to formulate tailored strategies for each client. By combining geotechnical expertise with environmental services and more, Haley & Aldrich delivers integrated solutions.

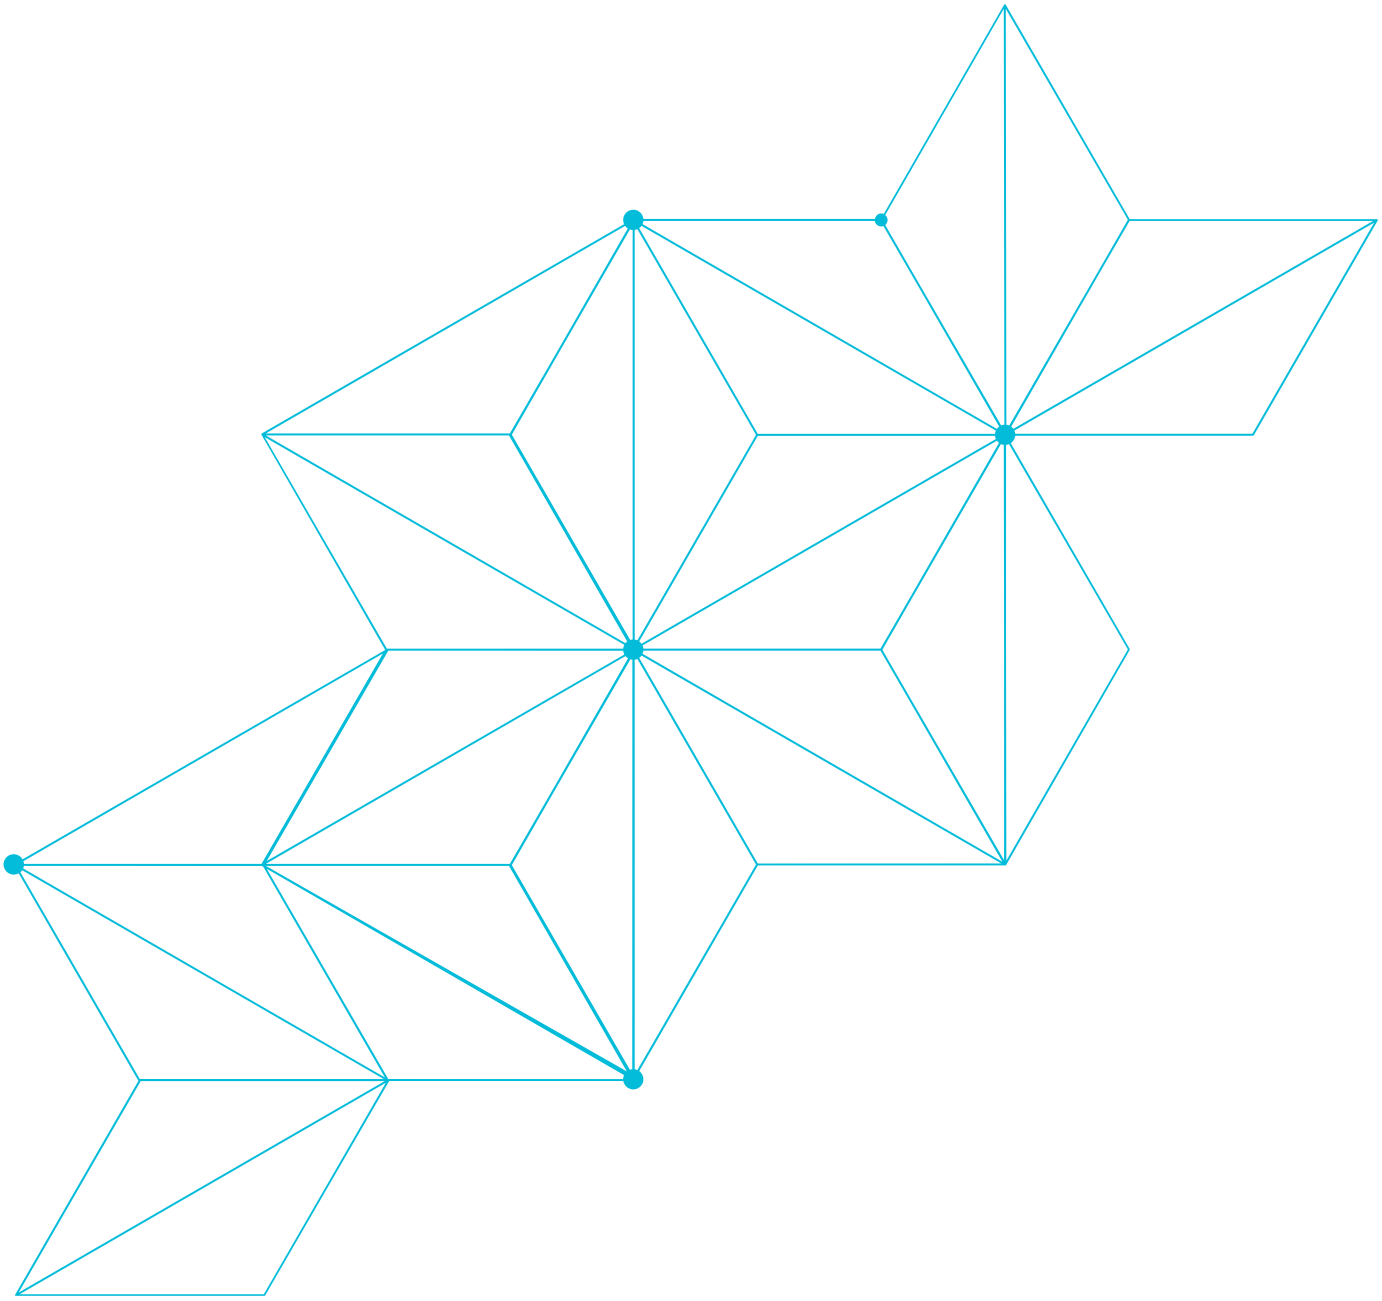

In addition to other projects in Arizona, we've been proud to partner with local stakeholders toremediate mine sites and protect water quality.
