

Raleigh

Advising clients in North Carolina and nationally.

Offering engineering and environmental consulting in collaboration with teams across the country.

Opened in 2024, Haley & Aldrich's Raleigh-area office provides a home for advisors who focus on environmental compliance, energy, climate resilience, sustainability, geotechnical engineering, and much more. They work locally and nationally on projects that involve:–

- [Brownfields](#)
- [Construction](#)
- [Contaminated site management](#)

- [Disaster and climate resilience services](#)
- [EHS compliance](#)
- [Sustainability](#)
- [Geotechnical engineering](#)
- [Lean consulting](#)
- [Water resources](#)

Projects in the region have included site assessments and remediation, environmental compliance and permitting support, wind and [solar energy](#) installations, [regulatory](#) strategy, environmental justice and community engagement, and complex [horizontal drilling](#).–
