

Vancouver, Washington

Find Haley & Aldrich in the Pacific Northwest.

Clients rely on our geotechnical engineering and environmental consulting.

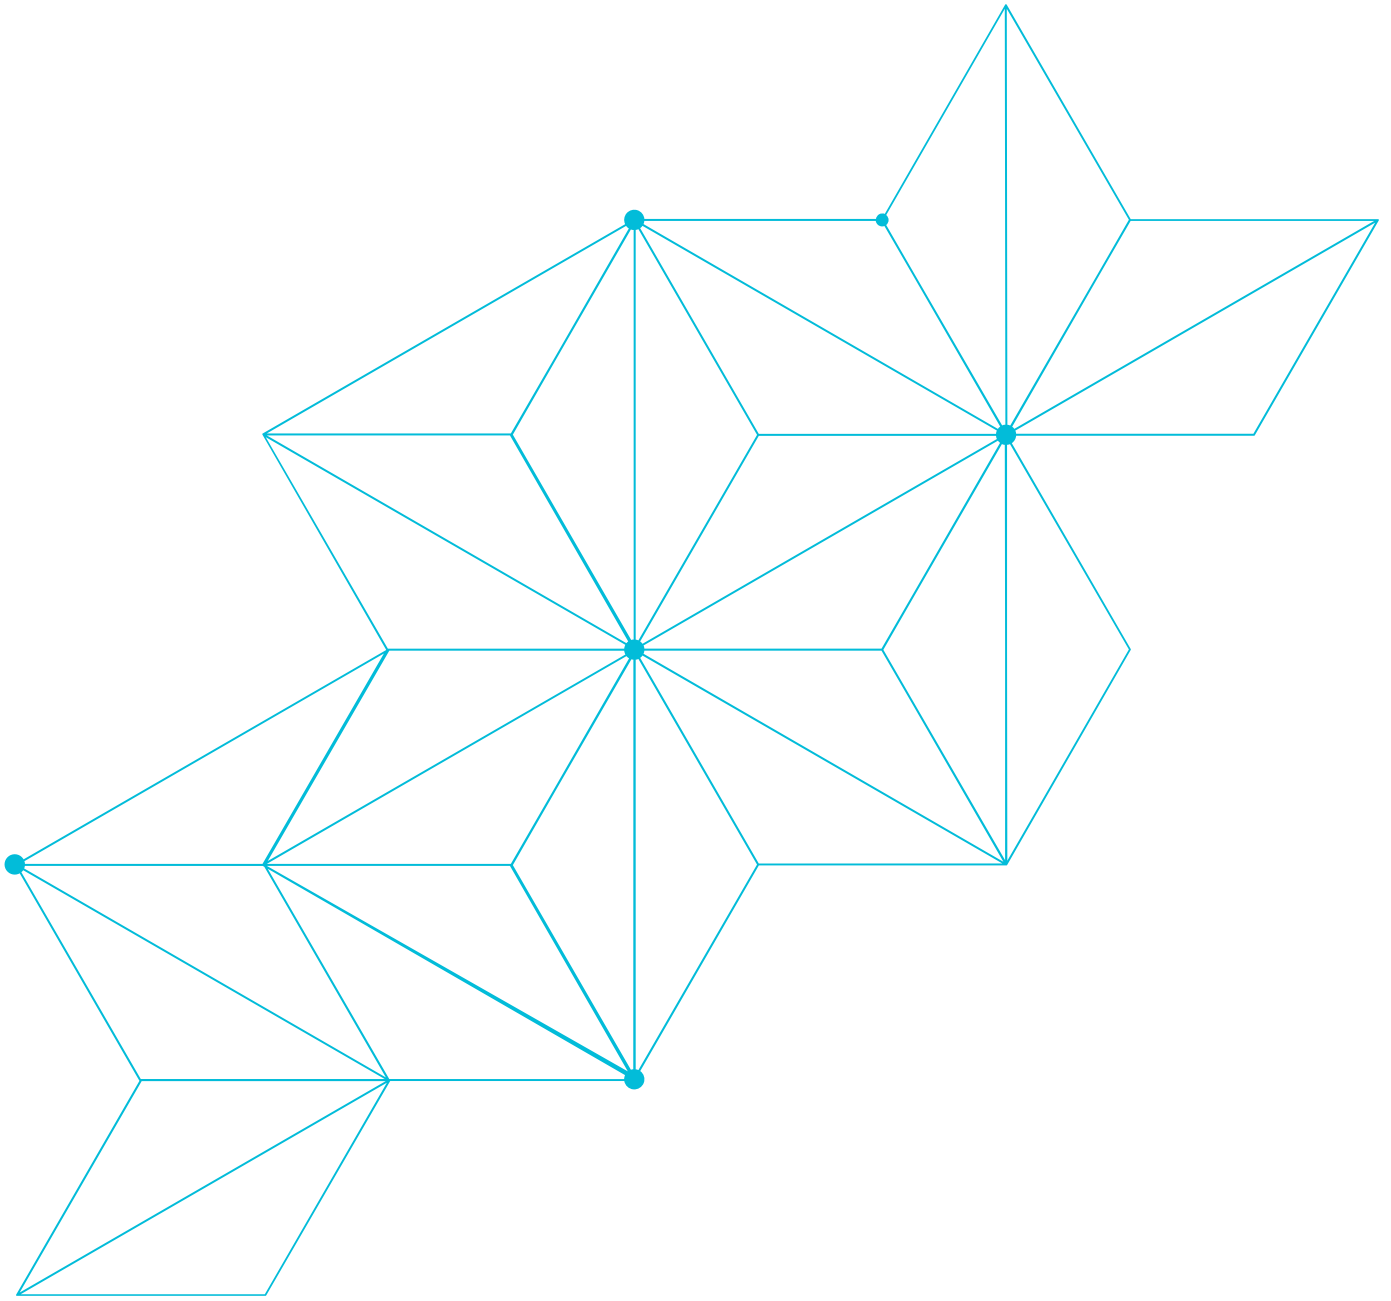

Located in the heart of downtown Vancouver, Washington, our office is ideally located to serve the needs of the local community and region. We focus on services that include the following:

- [Brownfields](#)
- [Construction](#)
- [Contaminated site management](#)
- [Disaster and climate resilience services](#)
- [EHS compliance](#)
- [Sustainability](#)
- [Geotechnical engineering](#)
- [Lean consulting](#)
- [Water resources](#)

Among other local projects, our experts work hard to help organizations located near the [Cascadia Subduction Zone](#) prepare for the potential environmental and infrastructure impacts of a major earthquake and tsunami.
