Government and infrastructure expert Scott Hershberger to lead Haley & Aldrich's government market

Burlington, Mass., June. 26, 2025 — Haley & Aldrich is pleased to announce that [Scott Hershberger](#) has joined the company to lead its government market. Hershberger will guide the firm's strategy for establishing a stronger, more focused presence with federal, state, and local government entities, driving our evolution to meet clients' needs today and in the future. -

Hershberger brings more than 20 years of experience in strategic growth, business development, and operational excellence to Haley & Aldrich. He previously provided executive-level leadership at multiple engineering, construction, and environmental consulting firms, overseeing nationwide go-to-market strategies with an emphasis on the public sector. -

Government clients across the country rely on Haley & Aldrich for geotechnical, environmental, and water management expertise as they manage their assets and natural resources. With a proven track record of success in infrastructure, environmental services, and government contracting, Hershberger will guide the expansion of the firm's well-established presence in state and local government, transportation, ports and harbors, and [applied research](#). Working with the firm's staff across the country, he will lead development and implementation of a strategy aligned with client needs and with Haley & Aldrich's distinct value as an integrated geotechnical and environmental consulting partner. -

"Scott brings the market-focused expertise and partnership-building skills that Haley & Aldrich needs to position itself for growth in the government market," said Chief Client Officer [Lisa Turturro](#). "As infrastructure ages and the impacts of climate change intensify, Scott will guide how we position to deliver the kinds of practical solutions government

clients need.”–

“I was drawn to Haley & Aldrich’s reputation for delivering innovative, sustainable solutions to complex geotechnical and environmental challenges,” said Hershberger. “I’m particularly inspired by the opportunity to contribute to a forward-thinking organization that values both strategic vision and hands-on execution.”–
