Jarrold Yoder joins Haley & Aldrich's Manufacturing team as Strategic Environmental Consultant

Burlington, Mass., Feb. 7, 2020 – Haley & Aldrich announced today that Jarrod Yoder has joined the company's Manufacturing team as a Strategic Environmental Consultant in its Boston, Massachusetts, office. In this role, Yoder will provide Licensed Site Professional services to clients in Massachusetts while developing strategies for environmental remediation challenges faced by industrial clients nationwide.

Yoder has more than 20 years of industry experience working with Superfund PRP Groups, the oil and gas industry, national defense contractors, municipalities, and commercial/industrial clients across the United States.

"Jarrod's blend of hydrogeology expertise and ability to implement strategic remedial solutions for clients means he is uniquely positioned to take on the toughest environmental challenges our clients face," said Mike Basel, Aerospace Market Segment Leader at Haley & Aldrich. "His deep heritage as a Licensed Site Professional leader in Massachusetts, combined with his experience throughout the country, make him a tremendously valuable resource at both the regional and national levels." Prior to Haley & Aldrich, Yoder worked in a variety of senior technical project management roles. That experience includes sites with commingled recalcitrant contaminants, non-aqueous phase liquids, sensitive receptors, vapor intrusion, and property development. He has directed and implemented numerous site investigations and remediation strategies and has a proven track record for reducing project expenses and environmental liabilities.

Yoder holds a B.S. in Geosciences and Hydrogeology from Penn State University. He is a Professional Geologist in Utah and New York. In Massachusetts he is both a Licensed Site Professional and a Wastewater Treatment Plant

Operator, Industrial Grade 2.
