Engineers Without Borders: dedicated to improving lives

Most people have heard of Doctors Without Borders, but fewer have heard of Engineers Without Borders (EWB). Portland, Maine's Professional chapter of EWB is continuing to make a difference both locally, with school outreach and small projects; and abroad, in Ethiopia, Haiti, Nicaragua and now Ecuador. Corporate sponsors of the Portland EWB chapter include Haley & Aldrich, Woodard & Curran, Credere, and Drumlin Environmental. Recently, Haley & Aldrich donated 48 recycled computers to the Ethiopia school project.
