Mitigating the unknown: planning for underground risks during ground-up developments

Haley & Aldrich [Real Estate Developers Market Segment Leader Mark Balfe](#) joins this webinar panel hosted by Bisnow to discuss the following questions about the Boston real estate market:

1. Should developers rethink their projects in light of the COVID-19 pandemic?
2. What kind of assets will our future economy demand and how will parking requirements change and therefore affect the demand for below-grade space?
3. How can you mitigate risks and avoid delays related to underground conditions for new developments (from acquisition through construction)?
4. Turning a vision into reality: how can early planning on the approach to below-grade (or no below-grade) space guide effective foundation and remediation solutions?
